

**Indian Institute of Technology Hyderabad
Recruitment and Promotion Rules for Non-Faculty Positions.**

Rule 2.7.3 (a) (2) - CRITERIA FOR RELATIVE RANKING OF CANDIDATES WHO SCORE SAME TOTAL MARKS.

1. In devising the methodology for relative ranking of candidates who secure same total marks, the principles enshrined in Civil Services (Mains) Examination of Union Public Service Commission (UPSC) have been adapted.
2. **Relative ranking of candidates:** Where 2 or more candidates score same total marks in written test, relative ranking of such candidates will be decided as follows:
 - a. Candidate scoring higher marks in 'Work Related Topics' will be ranked senior in relation to those scoring lower marks in 'Work Related Topics'.
 - b. In case the marks in 'Work Related Topics' and also the total marks are the same, the candidate with earlier date of birth will be ranked senior to those having later date of birth.

For example:

Name of candidate	Date of birth	Marks scored			Total marks scored
		Work related topics	General English [Communication Skills]	Arithmetic	
A	1.1.1980	64	9	9	82
B	1.4.1980	66	7	9	82
C	1.9.1979	64	10	8	82

The relative ranking of candidates based on marks scored in 'Work Related Topics' will be:

Rank 1 – B.

Rank 2 – C and A, based on date of birth.

Marks in 'Work Related Topics' being the same for both A and C, C is ranked above A as C has date of birth earlier to A.

If the number of posts is 2, offers will be made to:

Rank 1 – B, and Rank 2 – C.
